

**Quick Facts:** **Contact** **Part of the European Union's Instrument contributing to Stability and Peace (IcSP)**

Implemented by

- **ICMPD (International Centre for Migration Policy Development)**

In cooperation with

- EF (Expertise France)
- FIIAPP (International Foundation of Administration and Public Policies of Spain).

**Six participating countries:** Albania, Azerbaijan, Bosnia and Herzegovina, Moldova, Pakistan and Turkey

**36 months duration:** September 2014 – September 2017.

**Two Key Experts**

**Six Country Project Officers**

**Three Objectives:**

- Improve victim identification, protection and assistance by strengthening national and transnational referral mechanisms;
- Increase prosecutions of traffickers by enhancing national and transnational law enforcement cooperation and increasing the capacities of law enforcement, judiciary and NGO staff to address and fight THB more efficiently;
- Enhance coordination and cooperation among key actors by improving partnerships between relevant EU and non-EU actors.

**in Human Beings and Organised Crime**

**Phase 2  
THB/IFS/2**

*Building trans-regional partnerships in the fight against trafficking in human beings*

This project is funded by the **European Union**. The views expressed in this publication do not necessarily reflect the views of the European Union.

Implemented by a consortium led by the **International Centre for Migration Policy Development (ICMPD)**

ICMPD is an international organisation dedicated to promoting the development and implementation of comprehensive and sustainable migration policies.

ICMPD's Trafficking in Human Beings Competence Centre has developed experience and expertise over 12 years of working in the anti-trafficking field.

- FIIAPP  
<http://www.fiiapp.org/>

THB/IFS/2 is implemented by ICMPD in partnership with **Expertise France (EF)** and **International Foundation of Administration and Public Policies of Spain (FIIAPP)**.

*Fight Against Trafficking in Human Beings and Organised Crime – Phase 2* is implemented in the framework of the **Instrument contributing to Stability and Peace (IcSP)**, which succeeds the Instrument for Stability (IfS). IcSP is one of the key external assistance instruments that enables the European Union (EU) to take a lead in helping to prevent and respond to actual or emerging crises around the world, and addressing global and trans-regional threats.

Building on the achievements of the project *Fight against Trafficking in Human Beings- Phase 1 (THB/IFS/1)* implemented in **Azerbaijan, Bosnia and Herzegovina, Moldova** and **Turkey** from January 2013 to September 2014, Phase 2 seeks to contribute to the prevention of and fight against transnational organised crime, particularly in relation to trafficking in human beings. Further information on Phase 1 and Phase 2 of the project is available on the project website: [www.fightagainstrafficking.org](http://www.fightagainstrafficking.org). In addition to the four countries from Phase 1, Phase 2 expands the geographic focus to include **Albania** and **Pakistan**.

In line with the *EU Strategy towards the Eradication of Trafficking in Human Beings*, which stresses the need to include a broader range of actors in anti-trafficking interventions, the project will work closely with:

- National **stakeholders in charge of trafficking in human beings data collection** and analysis.
- **Ministries** involved in the anti-trafficking response and the referral of trafficked persons
- **Anti-trafficking coordination bodies, prosecutors and judges, law enforcement agencies** and investigators of specialized units dealing with trafficking in human beings cases.
- **Labour inspectors**
- **NGO staff** and local community groups specializing in **victim assistance and protection** activities.

### Project Activities

The project applies a three-step approach to enhance counter-trafficking measures in the participating countries as follows:

#### **Component 1: Support of the setting up or improvement of victim-centred referral systems**

- Research to assess the participating countries' current capacity to refer (potential) victims of trafficking;
- Revise/ develop and improve the **national and transnational referral mechanism** in each participating country;
- **Training** for relevant stakeholders in the participating countries on the revised national and transnational referral mechanisms.

#### **Component 2: Capacity building on data collection, analysis and information sharing in the field of anti-trafficking in human beings (including tailor-made follow up action to Phase 1)**

- Research to assess the needs of the two new project countries, Albania and Pakistan, which did not participate in the first project phase, in the areas of **data collection, analysis, information exchange, law enforcement cooperation and awareness on trafficking in human beings**;
- Continue and consolidate previous activities carried out in the project's first phase in these areas

#### **Component 3: Building Transnational Partnerships: platform for improved coordination, cooperation and policy coherence**

- Increase the capacity of anti-trafficking stakeholders in the project countries to cooperate and coordinate with their relevant counterparts in EU Member States through targeted expert support in the framework of transnational workshops.
